

**BUREAU OF LABORATORIES SERVICES GUIDE
INDEX**

ABO Grouping	III-1
<i>Acanthamoeba</i> culture- see Amoeba Culture	III-2
Accreditation.....	I-3
Acid Fast Bacilli culture (AFB)- See Mycobacterial culture.....	III-39
Address of Bureau of Laboratories	I-1
Adenovirus culture	III-1
Aerobe referred for identification (Bacterial).....	III-2
Aerobic actinomycetes culture- See fungal culture	III-18
AIDS Testing, See HIV	III-29-30
Alcohol screen- See Drugs of Abuse screen	III-16
Amoebae culture	III-2
Amphetamines screen- See Drugs of Abuse	III-16
Anaerobe referred for identification	III-3
Antibiotic susceptibility testing for M. TB.....	III-40
Antibody screen	III-3
Anticonvulsant Drug monitoring	III-4
Arbovirus serology	III-4-5
Bacterial isolate referred for ID - See aerobe or Anaerobe referred for ID.....	III-2-3
Barbiturate screen- See Drugs of Abuse	III-16
Benzoyl Ecgonine- See Cocaine & Marijuana screen	III-12,III-16
Beta hemolytic <i>Streptococcus</i> , Group A culture.....	III-6
Collection procedure for throat swab	II-25
Beta-hemolytic <i>Streptococcus</i> , Group B culture ...	III-6
Collection procedure for vaginal culture	II-26
Billing procedure	V-2
Billing numbers	II-5
Blood Lead- see lead analysis, blood.....	III-33
Collection procedure.....	II-11
Blood smears for blood parasites- See Malaria smear	III-37
<i>Bordetella pertussis</i> culture	III-7
Collection procedure	II-51
<i>Bordetella pertussis</i> DNA by PCR	III-7
Collection procedure.....	II-51
Botulism.....	III-8
Breast smear Cytology- See Paps smear/Breast smear cytology.....	III-44
Collection procedure for breast smear cytology	II-53
<i>Campylobacter</i> see Enteric pathogens culture	III-17
Capillary blood collection for Blood lead, capillary microtainer	II-11
Capillary blood, collection for Newborn screening, Heel-stick	II-8
Capillary blood, collection for HIV testing, Finger stick for dried blood spots	II-10
CBC	III-9
CD4- See Lymphocyte Subset	III-36

INDEX PAGE 2

CDC, specimens referred to.....	I-4
Certification of laboratory.....	I-3
Chagas disease -See parasite serology	III-45
Chain-of-Custody protocol for Drugs.....	III-9
Collection procedure using COC	II-68
Chemistry panels for DHEC clinics	III-10
<i>Chlamydia trachomatis</i> culture	III-11
Collection procedure.....	II-28
<i>Chlamydia</i> antigen detection by Gen-Probe	III-11
Collection procedure for Gen-Probe procedure.....	II-60
<i>Clostridium difficile</i>	III-12
CMV- See Cytomegalovirus culture or serology	III-15
Cocaine & marijuana screen, urine.....	III-12
Chain of custody Collection procedure	II-68
Complete Blood Count.. See CBC	III-9
Congenital Adrenal Hyperplasia- see Newborn Screening	III-42
<i>Corynebacterium Diphtheria</i> Culture and ID.....	III-13
County codes	II-4
Coxsackie A & B virus culture- See Enterovirus culture	III-17
<i>Cryptococcus neoformans</i> - See Fungal culture	III-18
<i>Cryptosporidium</i> stain	III-13
Collection procedures, Blood	II-7-14
Collection procedures, Culture	II-17-48
Collection procedures, Other	II-51-68
<i>Cyclospora</i>	III-14
Cysticercosis- See Parasite serology	III-45
Cytology, See PAP smear Cytology	III-44
Cytomegalovirus culture	III-14
Cytomegalovirus serology	III-15
Dairy products examinations	III-16
DHEC Program numbers	II-5
Diphtheria -See <i>Corynebacterium diphtheria</i>	III-13
Collection procedure (throat culture)	II-25
Disease reporting	I-10
Drugs of Abuse screen, urine	III-16
Chain-of-custody collection protocol	II-68
E.coli 0157 culture- see Enteric pathogens culture.....	III-17
Eastern Equine Encephalitis- See Arbovirus Serology	III-4-5
ECHO virus - See Enterovirus culture.....	III-17
<i>Echinococcus</i> - See parasite serology	III-45
Enteric pathogens culture	III-17
Collection procedure	II-20
<i>Enterobius Vermicularis</i> - See Pinworm Exam	III-46

INDEX PAGE 3

Enterovirus culture.....	III-17
Collection procedure for stool culture	II-44
Collection procedure for throat culture	II-46
Environmental Lead- see Lead, environmental	III-33
Filariasis- See parasite serology	III-45
Food-borne illness (Food poisoning).....	III-18
Fungal culture & Identification	III-18
Collection procedures for dermatophytes.....	II-32
Sputum collection procedure	II-34
Fungal specimen referred for identification	III-19
Galactosemia- see Newborn Screening	III-42
Gen-Probe antigen detection for GC & <i>Chlamydia</i> –	
<i>Chlamydia</i> antigen detection.....	III-11
Gonococcal antigen detection	III-20
Collection procedure	II-60
German measles - See Rubella serology	III-49
Giardia- see Trichrome stain.....	III-56
Gonorrhea (GC) Antigen detection (Gen-Probe).....	III-20
Gonorrhea Culture	III-21
Collection procedure	II-22
Group A <i>Streptococcus</i> Culture- See Beta-Hemolytic <i>Streptococcus</i> Group A culture... ..	III-6
Group B <i>Streptococcus</i> culture- See Beta-Hemolytic <i>Streptococcus</i> Group B culture	III-6
Hantavirus Serology- IgG/IgM	III-22
Heavy Metal analysis- call laboratory except for lead	III-33
Hematology See CBC	III-9
Hemoglobin (Hb) Electrophoresis	III-22
Hemolytic Anemia- see Hemoglobin Electrophoresis	III-22
Hepatitis A Serology	III-23
Hepatitis B Serology	III-23-26
Hepatitis C Serology, Total Antibody	III-26
Hepatitis C Quantitation (RNA and RIBA)	III-27
Collection procedure.....	II-14
<i>Herpes simplex</i> culture	III-28
Collection procedure.....	II-48
Herpes Serology.....	III-28
<i>Histoplasma capsulatum</i> See Fungal culture	III-18
HIV-1 PCR Qualitative (DNA)	III-29
HIV-1 PCR Quantitative (RNA)	III-29
HIV-1 Serology	III-30
Dried blood spot collection procedure	II-10
Hookworm - See parasite examination, (O&P)	III-44
Hours of business	I-1
Hypothyroidism- See Newborn screening & Thyroid panel	III-42, III-55

INDEX PAGE 4

Influenza virus culture	III-32
Influenza virus serology	III-32
Laboratory address and business hours	I-1
Laboratory Organization and contact persons	I-2
Lead analysis, Blood	III-33
Lead analysis, Environmental	III-33
<i>Legionella</i> culture	III-33
<i>Legionella</i> FA	III-34
<i>Legionella</i> serology	III-34
Leishmaniasis- See parasite serology	III-45
Leptospirosis	III-35
Lyme disease.....	III-35
Lymphocyte subset	III-36
Mailing address for Bureau of Laboratories	I-1
Malaria- See parasite serology	III-45
Malarial smear	III-37
MCADD see Newborn screening	III-42
Measles (Rubella) serology- see Rubella serology	III-49
Measles (Rubeola) serology see Rubeola serology	III-50
Measles (Rubeola) culture- see Rubeola virus culture	III-50
MHA-TP- seeTP-PA.....	III-55
Microsporidium stain	III-37
Mites- See scabies.....	III-52
Mold Culture- See Fungal culture	III-18
Mumps virus culture	III-38
Mumps virus serology	III-38
Murine Typhus serology- See Rickettsial serology	III-49
Mycobacteria	
Culture & ID	III-39
Collection procedures	II-36
Referred specimen for ID	III-40
Susceptibility testing	III-40
<i>Mycoplasma/Ureaplasma</i> Culture (Genital).....	III-40
Collection procedure.....	II-42
Mycopl;asma pneumonia culture (respiratory).....	III-41
Naegleria culture- See Amoebae culture	III-2
<i>Neisseria gonorrhoeae</i> - See Gonorrhea culture	III-20
Collection procedure.....	II-22
Newborn screening	III-42
Collection procedure, Heel-stick	II-8
Norwalk-like virus detection.....	III-43
Ordering Test Request forms	II-2
Ordering supplies and collection kits	II-1
Ova & Parasites examination (O&P) - see parasite exam	III-44

INDEX, PAGE 5

PAP smear cytology.....	III-44
Collection procedures.....	II-54
Parasite examination,	
General (O & P)	III-44
Collection procedure	II-62
Identification of proglottid or worm	III-45
Pinworm	III-46
Cellophane tape collection procedure	II-65
Malaria Smear	III-37
Serology	III-45
Parvo virus IgG/IgM serology	III-46
Phenylketonuria (PKU) - See newborn screening	III-42
Pinworm examination-	III-46
PKU- See newborn screening	III-42
Poliomyelitis- See enterovirus culture	III-17
Premarital testing for out of state licenses	I-5, III-47
Prenatal Panel.....	III-47
Pseudomembranous colitis- See <i>Clostridium difficile</i>	III-12
PVA preserved fecal specimen for parasitology - See Trichrome stain	III-56
Rabies examination	III-48
Remailing results	I-9
Repeat testing, requesting on serology specimens	II-1-4
Repeat testing, billing policy	V-1
Respiratory culture, Viral	III-48
Collection procedure	II-46
Results reports	I-9
Rh- see prenatal serology.....	III-47
Rickettsial serology, RMSF and MT	III-49
Ringworm- See Fungal culture.....	III-19
Collection procedure, hair, skin and nails.....	II-32
Rocky Mountain Spotted Fever serology(RMSF)- see Rickettsial serology.....	III-49
RPR- see Syphilis Serology	III-54
Rubella Serology	III-49
Rubeola virus culture	III-50
Rubeola Serology - See measles serology	III-50
Salmonella- See Enteric pathogens culture.....	III-17
SARS.....	III-52
Scabies	III-52
Collection procedure, skin scrapings	II-67
Schistosome analysis	III-53
Schistosomiasis serology - see parasite serology	III-45
Scotch Tape prep for pinworm - See Pinworm exam	III-46
Sender number, obtaining	II-4
Shigella- See Enteric pathogens culture	III-17

INDEX PAGE 6

Shipping specimens to lab	
Definitions	IV-1
Shipping Diagnostic specimens via U.S. Mail and State courier	
Clinical specimens	IV-2
Microscope slides	IV-4
Blood spots for newborn screening and HIV	IV-5
Shipping Diagnostic specimens and Infectious substances via a commercial carrier	IV-6
Shipping reminders	IV-11
Shipping forms	IV-13
Shipping containers, obtaining	II-2
Sickle Cell - See Hemoglobin Electrophoresis and Newborn Screening	III-22, III-42
Skin scrapings for Scabies	II-67
Specimen rejection criteria	I-7
Sporotrichosis serology - See parasite serology	III-45
St. Louis Equine Encephalitis - see Arbovirus serology	III-4
<i>Staphylococcus</i> - see enteric pathogens culture	III-17
Stool culture for enteric pathogens - see Enteric pathogens culture	III-17
Collection Procedure.....	II-20
<i>Streptococcus</i> , Group A (Pyrogenes) - see beta-hemolytic <i>Streptococcus</i> , Group A	III-6
<i>Streptococcus</i> Group B - see Beta-hemolytic <i>Streptococcus</i> , Group B culture	III-6
Supplies, obtaining	II-1
Susceptibility Testing for mycobacteria- See Mycobacteria, susceptibility	III-40
Syphilis serology Screen (RPR)	III-54
T4 lymphocytes- see Lymphocyte subset	III-36
TB culture- See Mycobacteria, culture & ID	III-39
Test fees	see insert in front of book
Testing policies	I-4
Test request forms, instructions for completing	II-3
Test request forms, ordering	II-2
Tetrahydrocannabinol (THC) (Marijuana)	
See Cocaine & Marijuana screen	III-12
See Drugs of Abuse screen	III-16
Thyroid panel, non-neonatal & confirmatory neonatal.....	III-55
TORCH battery	III-56
Toxocara - see parasite serology.....	III-45
TP-PA	II-55
Treponemal antibody serology- See MHA-TP	III-55
Trichinosis - see parasite serology	III-45
Trichrome stain	III-56
Tuberculosis culture- see Mycobacteria, culture & ID	III-39
Tularemia	III-56
Ureaplasma- see Mycoplasma/Ureaplasma culture	III-40
Collection procedure	II-42
Urinalysis	III-57

INDEX PAGE 7

Urine Drug analysis - See Drugs of Abuse, urine III-16
Varicella virus culture III-58
Varicella serology III-58
VDRL III-58
Vector Control I-10
Venipuncture procedure II-7
Vibrio- See Enteric pathogens culture III-17
Viral culture, routine see specific groups or viruses
Viral isolate for ID III-59
Viral Load, Hepatitis C- see Hepatitis PCR Quantitation (RNA) II-27
Viral Load- HIV- See HIV-1 PCR Quantitative (RNA)..... III-29
Visceral Larva Migrans- See parasite serology III-45
West Nile Virus Serology III-60
Western Equine Encephalitis- See arbovirus serology III-5
Whooping Cough- See *Bordetella pertussis* III-7
Yeast- See Fungal culture III-18
Yersinia- See Enteric pathogens culture III-17
